

Members: Ian Skelskey, Jack Norman, Isaiah Lathem, Dennis Grassl, Zachary Jacobson

Meeting Minutes 2/28/2023

2/28/2023 at 3:30 PM (MST)

Attendees:

- Dr. Bateman
- Ian Skelskey
- Isaiah Lathem
- Jack Norman
- Zachary Jacobson

Topics Covered

- Web UI development presentation
- Feedback of most recent deployment (PWA)
- More detailed functionality to be verified as we finish up the project

General Notes

- WebUI has begun and made some good progress
- Dr. Bateman will be collecting data live in the field the 17th, 18th, and 19th
 - Ian is going to the field with Dr. Bateman
 - Trying live tests with most current deployments
- Overall Dr. Bateman was happy with the latest developments on the PWA
 - The WebUI is still in the beginning stages but she's looking forward to testing the previous functionality in the next sprints
- There's some general logic that needs to be adjusted based on expertise that the development team couldn't have known such as certain length measurements can't be longer than others. These are being adjusted and will be tested during the next sprint
 - We're still fine tuning data validation
- Dr. Bateman is concerned with functionality - sessions seemed to be hooked to a site and array, can cause duplicate sessions for the same site/array, but they need to be combined
 - Requires some changes to be made on the WebUI side
 - Need one session per site/array
- Live testing of the PWA to get feedback on the bug fixes from the previous deployment

Members: Ian Skelskey, Jack Norman, Isaiah Lathem, Dennis Grassl, Zachary Jacobson

Requirements

- Get WebUI deployment to Dr. Bateman
 - Likely will be during field trip
- Need unique sessions
 - This has already been addressed during Sprint 8 and will be verified in Sprint 9

Agreements Reached

- Field Trip to be conducted the week of March 18th
- Testing to be completed during Field Trip
- Verification of previous app functionality during next sprint

Action Items

Action Item	Owner(s)	Due Date
<input type="checkbox"/> Verify unique session functionality	Team 30	Sprint 9
<input type="checkbox"/> Get deployment of online database (WebUI) to sponsor	Team 30	Sprint 9
<input type="checkbox"/> Continue forensic development of functionality for WebUI -to stay aligned with building a base that can be built upon in the future	Team 30	Sprint 9
<input type="checkbox"/> Complete field trip and testing (Ian to visit AZ)	Team 30	Sprint 9

Date/Time Next Meeting

- Sponsor meetings now recur every Tuesday at 3:30 PM Arizona time where the schedule permits for Dr. Bateman
